

PROGRP

ADVANCED GLASSFIBRE ROOFING SYSTEM

What is PRO GRP? GRP stands for Glass Reinforced Polyester. GRP is also known as Glass-Fibre. This system is cold applied on site, giving it a seamless and flexible weatherproof finish that resists water, heat and frost. The resulting surface gives a strong architectural finish that looks very impressive. If maintained properly it will last as long as the building stands.

We have developed this technology further to produce the perfect all weather protection for any flat roof.

PRO GRP can be applied in small domestic situations right through to large industrial environments.

Benefits of a GRP System

- **COLD APPLIED**
no heat required
- **EASY TO FORM**
around complex situations
- **VERY DURABLE**
resists heavy foot traffic
- **NON-SLIP WALKWAYS**
can be incorporated
- **CLASS LEADING ROOFING SOLUTION**
that far exceeds traditional methods
- **VIRTUALLY MAINTENANCE FREE**
for very long periods of time
- **IMPACT RESISTANT**
due to its ultra hard finish
- **FIRE RETARDANT**
- **HIGHLY ECONOMICAL SOLUTION**

Wall Fillet
Available in 3m lengths

Simulated Lead Flashing
Available in 3m lengths
Optional moisture trap available

Glass Fibre Matting
In 450gm² and 600gm²,
Resin
Available in 10kg and 20kg containers

Top Coat
UV and frost weatherproofing protection
Available in 10kg and 20kg containers

Firings added to aid run off.

Trim Adhesive
Available in 310ml

Raised edge trim
Available in 3m lengths

Large Fascia Trim
Fascia / drip trim
Available in 3m lengths
